Sr. No.	Name of the Activities	shareholders availing at least one service	Increased Annual incomes / Livelihood
A	Produce Aggregation	200	10 % by produce sold to vendor
B	Input supply/ Procurement <ul style="list-style-type: none"> <li>Food products</li> <li>Fertilizer</li> <li>Pesticide</li> <li>Seeds</li> </ul>	280	Saved 15% in Products purchased at Swastya FPCL
C	Agri Processing	350	Premium Amount 3% benefitted for their products sold to fpc
D	Farmers Training <ul style="list-style-type: none"> <li>Branding and packaging</li> <li>Soil Health</li> <li>Fertilizer Awareness</li> <li>Seed treatment</li> <li>Farmer Health Camp</li> <li>FRUIT ID registration</li> <li>Jawar procurement (MSP)</li> <li>Bengal gram Procurement awareness</li> </ul>	450	Increased their income by 7-8% by training and adoption of technology

## **VI - Important Lessons Learnt while implementing the Project:**

(Frank Opinion of the POPI is encouraged) -

- Value addition is the process in which for the same volume of a primary product, a high price is realized by means of processing, packing, upgrading the quality or other such means. Value addition is one of the important components of nutritional security. Sometimes farmers get less price of a particular farm produce due to its surplus production. This we can achieve through the FPO.
- It is felt that producer company format gave a better decision making scope to BODs than the earlier Cooperative format.
- Value addition of primary produce from the farmer adds to existing farming activity generating additional cash flows during non season of crops. Even though this part of the learning is known fact what made it unique is experiencing it especially during last two drought (Covid-19) years between 2020-21.
- The farmers earlier were focused only on rearing of sheep and goat but FPC has given them scope to think on backward and forward linkages in value chain cows. Board is actively planning on processing or linking it to processor.
- It is learnt that there is scope for convergence of various benefits to shareholder farmers from different departments and stakeholders.
- Covering small and medium farmers from the existing members as what all services they get from a FPO after being a member.
- Farmers are not able to differentiate the differences between PACS, Co Operatives vs. FPO. They debate more on issues, failures and misappropriations. They compare the same with FPO's and thus promotion becomes a challenge.
- Misleading the Small and Medium Farmers by Middlemen and local traders.
- Convergence with the line departments.

## **VII - Observations and general comments of the RO on the implementation of the project**

No Comments

### **VIII- Impact on Empowerment of women, Livelihood enhancement, and best practices followed, if any.**

This Fpo have started innovating new ideas, and connecting with many departments and establishing Government projects, obtained APMC license ,fertilizer pesticide and seeds license, MSP Procurement Centre, made MOU with NFED,NCCF, Marketing Federation and NACOF for selling Bharth Products Like Channa Dal, Toor Dal, ,Rice and Onion at nominal price fixed by Central Govto, members and they are sustaining in the activity they chosen and more over they are taking help in FPO, all natural farming awareness enhanced the method of agriculture practice more useful, and agriculture, awareness program will help lot to farmers, and value addition knowledge acquired.

#### **\*-X - Suggestion for improvement of Project implementation.**

##### **a) Initiate Grant supported projects.**

NABARD can take initiation to grant supported projects like - Watershed, Climate change, Animal husbandry and livelihood activities, Organic farming etc, So that the FPO sustainability of three years will increase to Six years. This will help the farmers to get convinced and confidence on their POs.

##### **b) Linking services.**

Coordinate supply and demand of Agri produce by facilitating linkages between farmers, processors, traders, and retailers. Provides key business development services such as market information, input supplies, and transport services for enhancing profitability of the company and welfare of its members.
